

St. Joseph's Health Care Foundation 2017-18 Allocations

PATIENT CARE

Life Experiences in Complex Care, \$3,049 – Parkwood Institute Main Building

Patients in the Complex Care Program were able to attend various community outings, while those who were unable to leave were provided with special on-site programs. These activities, made possible through donations to the Therapeutic Recreation Fund, helped to increase socialization, leisure activities and feelings of inclusion for enhanced quality of life experiences.

2015/16 The Ann and Bill Fleming Fund for Patient Rehabilitation & Care Needs at Parkwood Hospital, \$7,100 – Parkwood Institute Main Building

Medical and patient-related equipment was purchased to meet frontline patient care needs in the Rehabilitation Program at Parkwood Institute Main Building.

2016/17 The Ann and Bill Fleming Fund for Patient Rehabilitation & Care Needs at Parkwood Hospital, \$9,503 – Parkwood Institute Main Building

Medical and patient-related equipment was purchased to meet frontline patient care needs in the Rehabilitation Program at Parkwood Institute Main Building.

Dental Digital X-Ray for Veterans Care, \$14,500 – Parkwood Institute Main Building

An upgraded Dental Digital X-Ray machine was purchased for the Dental Clinic at Parkwood Institute.

Palliative Care Redevelopment, \$158,381 – Parkwood Institute Main Building

The expansion and refurbishment of the Palliative Care Unit at Parkwood Institute will include family art walls, sleeper chairs so a loved one can stay overnight, family lounges and additional private rooms to provide a home-like atmosphere where people at the end of life's journey can live, and die, with dignity.

Zero Suicide, \$184,900 – Parkwood Institute Mental Health Building

Canada's first Zero Suicide Initiative sets a bold goal of making suicide a never event within our health care system by training and supporting clinical staff to wrap care around people at risk of suicide so that no one falls through gaps in their journey of care.

Veterans Care Transition Project, \$296,229 – Parkwood Institute Main Building

In support of the next phase of transition within the Veterans Care Program to relocate Veterans to one area, funding will be used to install 29 new ceiling lifts, 120 slings, modifications to 2 tub/shower rooms, furniture needs for 2 lounges and accessible bathroom facilities.

Chapel Refurbishment, \$96,324, – St. Joseph's Hospital

The 100-year-old chapel at St. Joseph's Hospital received upgrades for a warmer and more vibrant look that restored the special place of worship to its original glory.

Personalized Music Recordings, \$1,430 – Parkwood Institute Main Building

Music recordings are personalized for patients and their families within Palliative Care and Veterans Care to listen at bedside and for families to keep after loved ones have died.

Prostate Diagnostic Assessment Unit, \$38,470 – St. Joseph's Hospital

The Prostate Diagnostic Assessment Program located at St. Joseph's Hospital streamlines diagnostic testing for patients suspected of having prostate cancer. Funding went towards specialized equipment to outfit this new program of care.

2016/17 Veterans Care & Comfort Fund, \$26,250 – Parkwood Institute Main Building

The Veterans Care and Comfort Fund purchases special care and comfort items that enhance the quality of life enjoyed by Veterans who make their home at Parkwood Institute Main Building and the Western Countries Wing.

Sun Sail and Installation, \$9,048 – Parkwood Institute Main Building

A sun sail now allows the residents living in a secured dementia unit to enjoy outdoor activities and BBQs in a shaded UV-protected environment.

SJH Outdoor Patio Seating, \$6,888 – St. Joseph's Hospital

In support of wellness and engagement, a designated gift was made in support of outdoor patio seating on the second floor of the A wing.

2016/17 Parkwood Hospital Auxiliary Wish List, \$4,173 – Parkwood Institute Main Building

Care and comfort items for patient and resident needs were purchased for frontline care in the Rehabilitation, Complex Care and Specialized Geriatrics Programs at Parkwood Institute.

Resident Computer Library, \$3,082 – Mount Hope Centre for Long Term Care

The Resident Computer Library now enhanced as an Internet Café by providing senior-friendly accessible space and a network for residents to safely access the internet.

Wall of Hope, \$2,813 – Parkwood Institute Mental Health Building

The Wall of Hope is an avenue for patients, families and staff to explore and display artwork related to the topic of hope in the spiritual care space.

Bidop V3 Doppler, \$3,267 – St. Joseph's Hospital

The Bidop V3 Doppler allows for a more accurate measurement of real-time waveforms.

St. Joseph's Primary Care Diabetes Support Program – Culinary Literacy Project, \$1,640 – St. Joseph's Hospital

For supplies that will be used in the "Teaching Kitchen" for those who have Type 2 Diabetes.

St. Joseph's Primary Care Diabetes Support Program – Research Collaborative Project, \$10,913 – St. Joseph's Hospital

Funding will be used to formally evaluate the reliability of a "Harmonized Foot Ulcer Screening and Referral Algorithm" and to support the dissemination of the algorithm.

Wheelchair Inventory Refurbishment, \$34,538 – Parkwood Institute Main Building

In support of various types of wheelchairs for use at Parkwood Institute.

Veterans Arts Studio Tables & Chairs, \$7,347 – Parkwood Institute Main Building

New tables and chairs for use in the Veterans Arts Studio at Parkwood Institute.

Brain EX90 Projection Screen, \$984 – Parkwood Institute Main Building

A projection screen will now allow clients who have visual challenges due to their brain injuries, to view video materials during group sessions.

The Bure Rise & Go Equipment for Rehabilitation at Parkwood, \$13,606 – Parkwood Institute Main Building

The Anne Toal & Paul Brisson Annual Fund for Patient Care Needs at Parkwood Hospital, \$7,381 – Parkwood Institute Main Building

In support of non-capital medical and patient-related equipment to meet frontline patient care needs of the Geriatric, Rehabilitation and Complex Care programs.

2017/18 Family Fun Day, \$2,609 – Mount Hope Centre for Long Term Care

Residents of Mount Hope and their families enjoyed a fun-filled day of outdoor carnival type activities, along with face painting, treats and a live band.

Canada 150 Mount Hope Art Project, \$723 – Mount Hope Centre for Long Term Care

Residents participated in the creation of a collaborative community project, and shared their stories through art by painting artistic squares that become part of a large Canada Flag on display at Mount Hope as part of the July 1 festivities celebrating Canada's 150th birthday.

Resident Bus for Mount Hope, \$103,802 – Mount Hope Centre for Long Term Care
An accessible bus was purchased to provide transportation for residents of Mount Hope, promoting community integration and leisure outings.

Bladder Scanner for Specialized Geriatric Services, \$12,000 – Parkwood Institute Main Building
A second bladder scanner was purchased for the Specialized Geriatrics Program.

The Endourology Fellowship Program, \$25,000 – St. Joseph's Hospital
Trainees are given the opportunity to integrate into the Urology Program at St. Joseph's to develop skills in basic and advanced endourological and robot-assisted laparoscopic treatments that are improving patient care.

Doppler for Family Medicine, \$2,209 – St. Joseph's Hospital
The Resident Wishing Well Program is a new program that will make dreams and wishes come true for the Mount Hope residents.

2017/18 Veterans Care Program Wish List, \$116,927 – Parkwood Institute
Canada's Veterans who make their home at Parkwood Institute can enjoy a variety of engaging social activities and recreational programs, and are supplied with personal care items that enhance the quality of life they experience in their home away from home.

2017/18 Veterans Care & Comfort Fund, \$13,890 – Parkwood Institute
The Veterans Care and Comfort Fund purchases special care and comfort items that enhance the quality of life enjoyed by Veterans who make their home at Parkwood Institute Main Building, and the Western Countries Wing.

2017/18 Parkwood Hospital Auxiliary Wish List, \$14,063 – Parkwood Institute
Care and comfort items for patient and resident needs were purchased for frontline care needs for programs at Parkwood Institute Main Building.

Benches for Parkwood Courtyard, \$1,221 – Parkwood Institute
This designated donation funded 2 new benches for patients, residents and family members to sit and enjoy the beauty of the Parkwood grounds.

A Motomed for the Wellness Centre at Mount Hope, \$9,165 – Mount Hope Centre for Long Term Care

This designated donation funded a motor driven, software controlled, movement therapy system incorporating a leg cycle and an arm/upper body exerciser that will be used for residents in the Wellness Centre.

Resident Family Christmas Dinner, \$2,426 – Mount Hope Centre for Long Term Care

St. Joseph's is able to bring Christmas to the residents at Mount Hope for those that are unable to go home during the holidays to enjoy seasonal festivities amongst family and friends.

Celebration of Life Services at Parkwood, \$80 – Parkwood Institute Main Building

Nurture Therapy, \$253 – Mount Hope Centre for Long Term Care

Nurture Therapy uses therapy dolls as a strategy to assist special care residents who are exhibiting negative, responsive behaviours, specifically to assist with wandering and restlessness.

Operation Santa Clause, \$1,263 – Mount Hope Centre for Long Term Care

Through donations designated in support of Operation Santa Claus, Mount Hope residents enjoyed personalized Christmas gifts in celebration of the spirit of the holiday season.

Resident Wishing Well, \$1,777 – Mount Hope Centre for Long Term Care

The Resident Wishing Well Program is a new program that will make dreams and wishes come true for the Mount Hope residents.

EDUCATION

The Dr. F. Luney Fund for Library Resources, \$1,733 – St. Joseph's Hospital

Various educational resources and books were purchased for the Robert M. McFarlane Library at St. Joseph's Hospital.

Canadian Association of Nurses in HIV/AIDS Care Conference, \$2,582 – St. Joseph's Hospital

Two staff attended the Canadian Association of Nurses in HIV/AIDS Care Conference.

2016/17 Education Materials for the Jolliffe Resource Centre, \$472 – St. Joseph's Hospital

Patient education materials and brochures on eye conditions were funded by the Marjorie Jean Jolliffe Fund for St. Joseph's Ivey Eye Institute.

The Robert E. and Mary Grace Grady Fund for Professional Development for the Operating Room Staff at St. Joseph's Hospital, \$1,442 – St. Joseph's Hospital

Awarded to a staff member to attend the International Laser Safety Conference focused on laser safety practice and hazard control.

Education Materials for the Jolliffe Resource Centre, \$2,737 – St. Joseph's Hospital

Patient education materials and brochures on eye conditions were funded by the Marjorie Jean Jolliffe Fund for St. Joseph's Ivey Eye Institute.

Operating Room Nurses Association of Canada Conference, \$1,695 – St. Joseph's Hospital

Funded by The Robert E. and Mary Grace Brady Fund for Professional Development for the Operating Room Staff at St. Joseph's Hospital, two operating room nurses were able to attend the annual Operating Room Nurses Association of Canada (ORNAC) Conference.

The Dr. David B. and Zivia Anne Meltzer Fund for Nursing Education, \$5,530 – St. Joseph's Health Care

Nursing staff across St. Joseph's are awarded with funding, based on excellence in nursing, to be used for continuing education in a nursing program.

The Nancy White Memorial Fellowship Fund, \$1,090 – St. Joseph's Health Care

Nursing staff across St. Joseph's are awarded with funding, based on excellence in nursing, to be used for continuing education in a nursing program.

The Clinical Education and Development Fund, \$3,815 – St. Joseph's Health Care

Awarded to members of an interdisciplinary team providing or supporting clinical care, four awards were presented and directed toward clinical education, advancement of leadership, communication, critical thinking, conflict resolution skills, critical appraisal, continuous quality improvement, and evaluation and/or research skills.

The Michael P. Boucher Endowment for Leadership Development, \$2,725 – Parkwood Institute Main Building

Two awards were presented in support of leadership development, innovation, continuous learning and excellence in the fields of aging, rehabilitation, complex continuing care including palliative and Veterans care at Parkwood Institute.

The Helen C. L. Zavitz Award, \$150 – Parkwood Institute Main Building

A nursing student, who completed a placement at Parkwood Institute Main Building, is awarded support to be used for continued nursing education.

The Dr. M. R. Belsheim Memorial Fund Award, \$1,000 – St. Joseph's Hospital

Awarded to a resident recognized as an outstanding teacher, amongst the Gastroenterology subspecialty residents in the Gastrointestinal Training Program.

The Dr. B. Lloyd Hession Memorial Fund Award, \$500 – St. Joseph's Hospital

Awarded to a resident in internal medicine that demonstrated exceptional ability in education and leadership, as well as a high academic standing in Internal Medicine.

Diabetes Education Workshop, \$2,383, St. Joseph's Hospital

Diabetes educators attended the annual Diabetes Education Centre “Fundamentals of Diabetes” Spring Workshop.

Ophthalmic Education Fund for Diagnostic Technicians at St. Joseph's Ivey Eye Institute,

\$7,242 – St. Joseph's Hospital

Funded by the endowed Ophthalmic Education Fund for Diagnostic Technicians at St. Joseph's Ivey Eye Institute, ophthalmic technicians and ophthalmology residents attended a two-day education workshop on scan ultrasound testing.

Thames Valley Breast Imaging Update Seminar, \$7,500 – St. Joseph's Hospital

A seminar was hosted by St. Joseph's Hospital for the breast imaging technologists, nurses, advanced practice nurses, surgeons and radiologists, through a grant from the endowed Dr. Lauren McCurdy Diagnostic Imaging Fund.

The Dr. F. Luney Fund for Library Resources, \$1,248 – St. Joseph's Hospital

Various educational resources and books were purchased for the Robert M. McFarlane Library at St. Joseph's Hospital.

RESEARCH

Surgical Mechatronics Laboratory, \$90,121 – St. Joseph's Hospital

The Surgical Mechatronics Laboratory develops minimally invasive upper arm surgical interventions that support surgical skill development, enhance patient recovery and seek to reduce further surgeries.

Protocol Development & Implementation Planning: Building the Foundation for Clinical and Research Innovation in Locomotor Training, \$54,338

Research in the area of rehabilitative care for people with spinal cord injury, to develop programs that support effective care and recovery from injury and disease.

Treating Dementia with Cough Medicine: A Double Blind Randomized Controlled Trial Repurposing Ambroxol as a Disease Modifying Treatment for Parkinson's Disease Dementia, \$280,964

Gold Shackles or Freedom Band: The Electronic Patient Wrist Band and its Role in Patient Safety and Recovery Oriented Care, \$330

Clinical Research and Chronic Disease Centre, \$797,205

The Clinical Research and Chronic Disease Centre brings researchers across many disciplines together in one state-of-the-art facility to focus on life-long diseases, improving the way clinicians help to prevent, diagnose, treat and help people to manage them.

iSee Vision Screening Research Program, \$60,143

The Ivey Special Eye Examination Services (iSee) aims to examine photo screening as a useful and rapid tool to identify eye conditions in children. Using photo screening (a specialty camera that can capture irregularities in the eye) only requires a child to sit still for a few seconds.

Parkwood Planning and Pacing App for the Acquired Brain Injury Rehabilitation Program, \$14,926

A points system for those with an Acquired Brain Injury (ABI) to help self-manage their symptoms through an application that can be used on various devices.

Development of a PET Probe for Detection of D3 Receptors in Lewy Body Dementia, \$45,000

Lewy Body Dementia Research

Effect of dietary olive oil supplementation during pregnancy to diabetic mothers, and its impact on pancreatic development on their offspring at birth and at young adulthood, \$3,087

Diabetes Research

Functional CT Imaging in Ventricular Tachycardia, \$375

Imaging Research

Bringing Contemporary Dopamine Receptor Imaging to London: A GMP Production of (+)-[11C]PHNO", \$4,926

Imaging Research

Imaging Glucose Metabolism in MRI and PET: Cross-Validation of GlucoCEST and FDGPET, \$568

Imaging Research

Jazzercise to Improved Physical Fitness and Brain Function in Sedentary Post-Menopausal Women with Subjective Cognitive Impairment: A Pre/Post Feasibility Study, \$9,576

Cognitive Vitality Research

Impact of cognition and anxiety on falls and reintegration back into community living in older adults after discharge from inpatient rehabilitation for a lower extremity amputation, \$4,376

Cognitive Vitality Research

Attention/working memory rehabilitation in relapsing remitting multiple sclerosis, \$12,032

Cognitive Vitality Research

Collaborative Health Research Informatics System, \$73,353

A computer database system to capture both clinical and research data in older individuals seen in the Aging Brain and Memory Clinic as well as investigator-initiated research projects.

Regeneration of Insulin-Producing Cells to Reverse Diabetes, \$2,137

Diabetes Research

Problem Solving Therapy (PST) Education: Providing Excellence in Mental Health Care Through Staff Skill Development, \$7,618

Problem Solving Therapy (PST) is effective for treating a myriad of mental health issues, including forms of depression (including depression in groups such as older adults, individuals with mild cognitive impairment or early dementia, Veterans, and people living with medical problems including diabetes and cancer), severe mental illnesses, substance abuse, and chronic pain associated with lifelong illnesses.

London Tumour Biobank, \$52,000

The London Tumor Biobank provides access to patient biospecimens and clinical data for researchers who are ready to make the next step from bench-top research to patient care.

2015/16 Endowed Research Fellowship in Care of Older Adults, \$19,413

2015/16 The Mary Elizabeth Horney Endowed Fellowship in Rehabilitation Research, \$11,000

2015/16 Robert S. and Mary Gay, Donald, James and Helen (Taylor) Gay Endowed Research Fellowship in Veteran Care, \$22,000

2015/16 Joseph A. Scott Endowed Studentship in Mobility & Aging Rehabilitation Research, \$7,067

2015/16 Siskinds Endowed Studentship in Spinal Cord Injury Research, \$7,133

2015/16 London Life Endowed Research Studentship in Stroke Rehabilitation, \$24,493

Wound Care Study, \$11,745

An international multi-site population based study to determine the prevalence and functional impact of Lymphoedema/ chronic oedema in the adult population of member countries of the International Lymphoedema Framework.

Marathon and Opticell Study in Wound Care Research, \$4,987

Autoradiographic System Needed to Dramatically Improve New Molecular Imaging Procedures for Early Detection of Disease, \$88,650

MRI Coil for the Diagnostic Imaging Program, \$84,872

Specialized imaging equipment to detect sodium at a molecular level for the care of people with kidney diseases and dysfunctions.

How Much is Too Much: Assessing Varying Pressure Pump Pressures in Post-Operative Pain Control in Shoulder Arthroscopy, \$543

The Miriam Burnett Research Chair in Urological Sciences, \$93,955

Chair position in Urological Sciences, providing scientific leadership and improving technologies and non-invasive procedures to improve health care in the fields of prostate and other urological cancers, and probiotics.

The Miggsie Lawson Directorship of the Lawson Health Research Institute, \$63,963

Chair position of the Scientific Director of Lawson Health Research Institute, attracting research talent and improving medical research for the health of our community, region and beyond.

Endowed Chair in Human Microbiology & Probiotics, \$225,524

Chair position in Human Microbiology & Probiotics, improving health care through research in probiotics.

Dr. Joseph Rea Chair in Mood Disorders, \$33,400

Chair position to support evidence-based research into the causes, prevention, and treatment of affective disorders to improve care and treatment.

The Helen and Frances Lawson Chair in Diabetes Research, \$130,797

Chair position that is improving diabetes care through medical research.

The Douglas and Vivian Bocking Chair in Fetal and Newborn Growth, \$106,304

Chair position in Fetal and Newborn Growth.

LHRI Founding Endowment, \$86,938

Supports ongoing research initiatives at Lawson Health Research Institute to improve health care for our community, region and beyond.

Lawson General Endowment, \$31,091

Supports ongoing research initiatives at Lawson Health Research Institute to improve health care for our community, region and beyond.

Research Capital Fund, \$5,089

Supports ongoing research initiatives at Lawson Health Research Institute to improve health care for our community, region and beyond.

Donald and Elizabeth Ness Endowment, \$19,434

To support of the pursuit of expert assistance for researchers to commercialize their discoveries at Lawson Health Research Institute.

Medical grade cocaine and perioperative morbidity following ambulatory endoscopic sinus surgery – a population analysis, \$1,009

The research study is to determine if the use of topical intranasal vasoconstrictors increase the risk of perioperative cardiovascular outcomes.

2016/17 Endowed Research Fellowship in Care of Older Adults, \$11,415

2016/17 Mary Elizabeth Horney Endowed Fellowship in Rehabilitation Research, \$11,000

2016/17 Siskinds Endowed Studentship in Spinal Cord Injury Research, \$7,133

2016/17 London Life Endowed Research Studentship in Stroke Rehabilitation, \$24,493

Developing New Models of Care Through Integrating World Class Neurorehabilitation Research Databases: Creating an Evidence-Based Center for Best Practices, \$25,759

Stroke Rehabilitation – Building the Hospital/Community Connection, \$13,885

Quality Assessment of Robot Assisted Laparoscopic Surgery in Urology, \$40,000

Planning and Pacing App Phase 2 for the Acquired Brain Injury Rehabilitation Program, \$8,442
A points system for those with an Acquired Brain Injury (ABI) to help self-manage their symptoms through an application that can be used on various devices.

The Establishment of a Tissue Engineering Research Program in Urology, \$20,000

Gait and Brain Lab, \$2,089

The Gait and Brain Health Program at Parkwood Institute Main Building integrates mobility and cognition research to address the epidemic of insidious disability in order people.

The Beryl & Richard Ivey Research Chair in Aging, Mental Health, Rehabilitation & Recovery, \$105,128

Chair position providing scientific leadership in Aging, Mental Health, Rehabilitation & Recovery within Lawson Health Research Institute (based at Parkwood Institute Main Building).

Development of a Blood Test to Diagnose Parkinson's Disease, \$50,000

Sister Mary Doyle Leadership Award, \$500

Lucille & Norton Wolf Health Research Lecture Series and Lucille & Norton Wolf London Health Research Day Trainee Publication Awards, \$12,429
